

## Thoughts About Motherhood

Mothers are the creatures  
which God has made for us.  
He made them out of love so pure  
and gentle tenderness.

He added other factors  
of which she now consists.  
Like honesty, integrity  
and cheeks for us to kiss.

You'll find her always working  
for our betterment.  
She teaches and instructs us  
with self-abandonment.

If we would only learn well  
the lessons that she teaches.  
We'd be much happier than the times  
when father gives his speeches.

On this the day our family  
does gather round and praise you.  
We'd like to share our sentiments,  
and love and memories of you.
